

HARDATA OFFICE

Content Management, Remote Control, Programming,
Reports, CG & Branding

CONTENT MANAGEMENT

HARDATA OFFICE is a software package for managing content your television station. It can be installed on any standard PC, or it can be ordered integrated and pre-installed on a Dell PC.

Handle your materials and manage the contents of your TV station in an easy and friendly way through the Library window of HARDATA OFFICE. Design your own workflow managing in a simple way all servers in the HARDATA video ecosystem.

PROGRAMMING

Program a playlist for each station and assign a playout channel of a HARDATA SMART or PLAYOUT server for broadcast.

HARDATA OFFICE allows you to program your stations in advance and store them to be automatically loaded into the corresponding date.

Generate your emission reports and alerts from HARDATA OFFICE and manage your stations safely and reliably.

CG AND BRANDING

HARDATA OFFICE also allows you to create and manage CG and graphics projects and assign them to certain stations. User interface simple and intuitive, CG and branding with sockets, animated logos, vertical and horizontal scroll, flash animation, time and temperature.

REMOTE CONTROL

Remotely manage ingest or playout windows of any model of the HARDATA SMART, PLAYOUT or INGEST line.

From any HARDATA OFFICE workstation within your HARDATA network you can manage one or more channels of the same or different servers.

HARDATA OFFICE allows you to easily import video files to any of the servers in your HARDATA network, catalog your metadata and quick search to streamline the programming of your playout.

■ SPECIAL REQUIREMENTS

Our core capability is software engineering, and customers frequently engage us and our authorized system integration partners to support them in the design of custom solutions.

Bring us your questions and application requirements – our solution engineers are standing by to help you.
